## System requirements

---

### **Recommended system requirements:**

- Windows 10 (64-bit versions only)
- processor Intel® Core i5 or AMD® equivalent and higher
- 8 GB RAM memory
- 6 GB disk space for program files installation
- dedicated graphic card\*
- SSD system disk
- Microsoft .NET Framework 4
- Microsoft Visual C++ Redistributable 2010, 2012 a 2015

#### **\*Note:**

*Drawing speed while zooming, panning, rendering, 3D displaying etc. is greatly influenced by your graphic card. We recommend to use a middle class „game“ graphic card or professional series of graphic cards Nvidia Quadro or AMD FirePro.*

*Regular update of graphic card driver is also important. Drivers can significantly influence performance and stability and we therefore recommend to update them every time you install a new version of CADKON+ or at least once a year.*

### **Minimal system requirements:**

- Windows 10, Windows 8.1 (64-bit versions only)
- processor Intel® 3<sup>rd</sup> generation Core i3.0 AMD® equivalent
- 4 GB RAM memory
- 6 GB disk space for program files installation
- Microsoft .NET Framework 4
- Microsoft Visual C++ Redistributable 2010, 2012 a 2015
