CADKON+ 2022 Service Pack 2 News

CADKON+ 2022 Service Pack 2 contains improvements and fixes for CADKON+ ARCHITECTURE, CADKON+ RC and CADKON+ BASIC version 2022.

It is intended for all commercial **CADKON+ 2022** installations (build **22.0.0043**) or **CADKON+ 2022 SP1** (build **22.1.0018**). These are installations downloaded before the 10th of November 2021, which is the date of the Service Pack 2. Installations downloaded after this date already contain the Service Pack 2 and it therefore does not need to be installed separately.

The exact build of the installed CADKON+ can be verified by command „_CKABOUT“, directly in the CADKON+.

Service Pack 2 will also automatically install a previous [Service Pack 1](#) if it has not already been installed.

General information about service pack installation

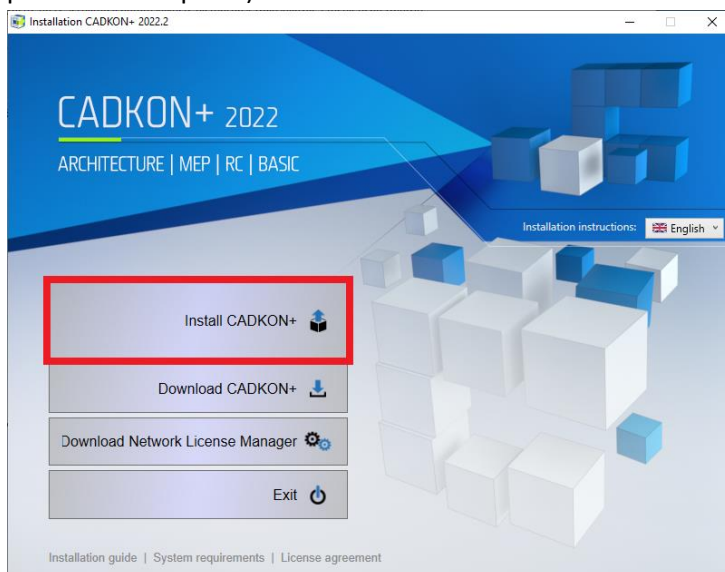

CADKON+ service packs are always part of a CADKON+ online installation. Regardless of the CADKON+ 2022 version you have installed, online update of the program will update all required files to their newest versions.

The service pack installation is carried out using an updated CADKON+ 2022 exe file (*SetupCadkonPlus_2022.exe*). After running the exe file, installation program will automatically identifies whether CADKON+ 2022 is or is not installed and will offer one of the following options:

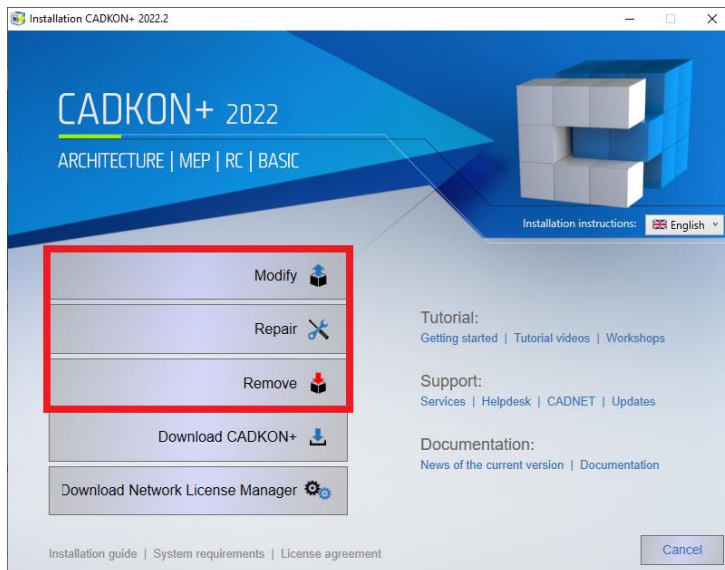

- **Update CADKON+** (in cases when an older version of CADKON+ 2022 is found on the particular computer).

- **Install CADKON+** (in cases when no older version of CADKON+ 2022 is found on the particular computer).

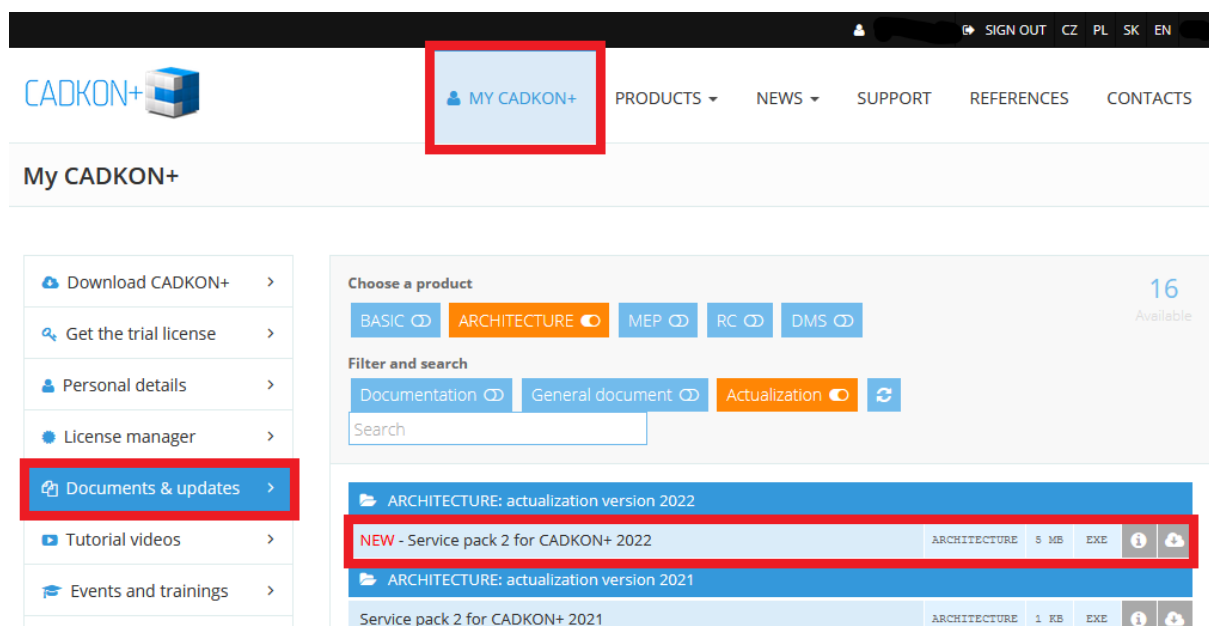

- **Configure CADKON+** (in cases when no program update is available and the newest version of CADKON+ 2022 is installed on the particular computer).

Installation on a computer with already installed CADKON+ 2022

You have received the Installation file *SetupCadkonPlus_2022.exe* as a link in an email from Graitec company or you can download it from www.cadkon.eu.

To download it from www.cadkon.eu you need to sign up (register) and go to a section „MY CADKON+“ → „Documents and updates“.

Installation process

If you have CADKON+ 2022 already installed on your computer, proceed as follows:

1. Download the updated installation file *SetupCadkonPlus_2022.exe*.
2. Close CADKON+.
3. Run the downloaded file *SetupCadkonPlus_2022.exe*.
4. Click on „Update CADKON+“, and continue in the installation.
5. When the installation is completed, click on „Finish“.

Warning: The program update cannot be uninstalled separately.

Note: By Service Pack 2 installation, the **Slovak add-on** (an add-on modifying CADKON+ Architecture outputs into the Slovak language) will also be updated, if it is installed.

Verification of Service Pack 2 version

If you need to verify the installed Service Pack 2 version, proceed as follows:

1. In Start menu (Windows) go to Control Panels/ Programs/ Programs and functions.
2. In the list of all installed programs, find CADKON+ **2022.2**. In Details of the record, you will find the pack label **22.2.5** and the installation date.

Installation on a computer without CADKON+ 2022

You can install CADKON+ 2022 on a computer with no CADKON+ installed using an updated exe file *SetupCadkonPlus_2022.exe*, which you have received as a link in an email from Graitec company or you can download it from www.cadkon.eu.

To download from www.cadkon.eu, you have to sign up (register) and go to section „MY CADKON+“.

SUPPORT REFERENCES CONTACTS

The screenshot shows the CADKON+ website interface. At the top, there is a navigation bar with the CADKON+ logo, a user profile icon, and language options (CZ, PL, SK, EN). Below this is a secondary navigation bar with links: MY CADKON+, PRODUCTS, NEWS, SUPPORT, REFERENCES, and CONTACTS. The 'MY CADKON+' link is highlighted with a red box. The main content area is titled 'My CADKON+'. On the left, there is a sidebar menu with links: Download CADKON+, Get the trial license, Personal details, License manager, Documents & updates, Tutorial videos, Events and trainings, Technical support, and Your opinion. The 'Download CADKON+' link is highlighted with a red box. The main content area is titled 'CADKON+ Downloads' and contains the following text: 'Download the current trial version of CADKON+ which contains programs CADKON+ BASIC, CADKON+ ARCHITECTURE and CADKON+ RC. After the download and launching the Setup Wizard, you can choose which program you wish to install.' Below this text is a blue button labeled 'Download CADKON+ 2022' with the subtext 'modules BASIC, ARCHITECTURE, RC'. This button is also highlighted with a red box. Further down, there is a paragraph about downloading an installation guide, newsletter, and other resources from the 'MY CADKON+' section, with links to 'Documents and updates' and 'Videos'. At the bottom, there is a note about the 30-day CADKON+ trial version requiring activation of a trial license using authorization codes, with a link to 'Get the trial license'.

The instructions for the installation can be found in the Installation Guide which is available after you run the CADKON+ installation.

Note: Installation to a new computer using the updated exe file SetupCadkonPlus_2022.exe will always perform a new clean installation that will include all officially issued program updates (service pack, hotfix etc.).

Solved problems common for CADKON+ ARCHITECTURE, CADKON+ RC and CADKON+ BASIC

Installation

- Some of specific PC configurations do not allow confirmation of CADKON+ licence agreement and do not allow continuation of installation process.

Drawing and editing

- In a specific drawing the software crashes when trying to stretch objects.
- Random crash of software when editing the path of linked pictures by picture manager.
- Crash of software when copying specific block using Windows clipboard.
- Crash of software when inputting specific block using Windows clipboard.
- Incorrect display of snapping mark when using Move command.

Hatches

- Crash of software if during hatch border detection no border is detected.
- Crash of the software during manipulation with a specific hatch using specific editing commands.

Dynamic input

- Software crashes when switching to other application and back to CADKON+ , if the dynamic input is active.

Content browser

- Random crash of software during creating of a new drawing, if the layer or text manager are switched on.

Locking of a drawing

- The functionality Drawing Lock causes error message “Command can not be run” after the installation of previous Service Pack 1.

Solved problems for CADKON+ ARCHITECTURE

Floor structure

- When changing layer name of floor structure and then applying to a drawing, original layer name of floor structure is displayed.
- In floor structure dialog, when turning layer on/off using a light bulb, the layer is wrongly displayed/ not displayed in specific cases.

Solved problems for CADKON+ RC

Labels and bending details

- If &L2 = Length in [m] is used in the label of a variable length item, the length is inappropriately rounded to whole metres. This does not happen for a normal item.
- If the option "Use rebar shape" is used in the description of the series, the bars and the label disappear.

Other

- Excessive size of the 2D section frame: When changing the view depth of a 2D section, the frame size was oversized.
- Restoring the constraints will disable the bars in some cases.
